SWIMMING POOL

NEW POOL OR REPLACEMENT LINER

PURPOSE:

Deduct meters may only be used for filling new pools or filling pools after a new liner replacement. The minimum accepted water usage is 10,000 gallons. Anything under 10,000 gallons would not be an acceptable use for a deduct meter and would not qualify for a bill adjustment.

APPLICATION:

- The completed deduct meter application must also be accompanied by a copy of the building permit or new liner receipt/contractor bill/estimate.

DEDUCT METER RENTAL:

- Upon approval of the deduct meter application, the applicant can make arrangements to pick up a rental deduct meter at the Elizabeth Township Municipal Building at 522 Rock Run Road Elizabeth, PA 15037. A Township official will verify the application and zero out the meter to ensure an accurate reading. There will be a \$100.00 security deposit that is due at the time of rental. The full security deposit will be reimbursed upon return of the meter if the meter is left in good condition. Check or cash only. **The applicant will be permitted to rent the meter for up to **5** business days with no additional fee outside of the security deposit. However, for every day the deduct meter is kept after 5 business days, a \$10.00 rental fee per day will be required. For example, if you are due to return the deduct meter on a Friday, but you do not return it until the following Monday, you will be charged \$30.00 for keeping it on Saturday, Sunday, and Monday.

AFTER RENTAL PROCEDURES:

- Once the deduct meter has been returned and is found to be in good condition, an Elizabeth Township employee will record the meter reading and turn the reading number over to Legal Tax Service, who will adjust your bill accordingly.

Failure to comply with all rules and regulations covering deduct meter installation will negate deduct meter adjustments.
